

Job opportunities at Fathom

Our team is always on the lookout for strong candidates with top-flight academic training and an excellent understanding of the relationship between the macro economy, financial markets and politics. If you are interested in joining us, please submit your curriculum vitae and a cover letter using the [Careers enquiries form](#) on our website.

In addition, we are urgently looking to fill the following specific vacancies:

Economist

We are looking to appoint up to two graduate economists who are keen to test their academic skills in the real world. The ideal candidates would have proven quantitative skills, and would be completing their studies this year, either in economics or in a related discipline, such as finance or politics. A postgraduate qualification would be a bonus, as would relevant work experience, for example on an industrial placement year, but neither are essential. To find out more, please contact careers@fathom-consulting.com quoting job reference 25/02/2019/001. The deadline for applications is 5:00pm Monday 25 March 2019.

Charting and content analyst

We are urgently seeking a person with a good grasp of economic and financial market fundamentals, a meticulous eye for detail and a flair for visualisation of complex data. The role involves deep involvement in one of the company's flagship products, with the aim of ensuring the integrity of the product as well as maintaining and continually improving its content. The person will be responsible for suggesting and implementing enhancements to the existing product. The role would suit someone who is thorough and conscientious and who enjoys taking responsibility for important projects. Ideally you would have a background in data management, especially in the area of economics and financial market data. A few years' experience and a good degree in a relevant subject are also required. To find out more, please contact careers@fathom-consulting.com quoting job reference 25/02/2019/002. The deadline for applications is 5:00pm Monday 25 March 2019.

Data visualisation specialist

We are urgently seeking a person with strong data visualisation skills with experience in Tableau and R (ggplot2, and/or shiny) and/or other visualisation software. In addition, familiarity with programming skills in either R or Python, a quantitative mindset, and a keen interest in finance and economics gained through professional experience, academic studies or a demonstrable personal interest, is required. The role would suit someone who has a flair for finding creative ways to visualise complex data. The data visualisation specialist would be responsible for creating content for our regular research offering as well as our bespoke consultancy projects. A few years' experience and a good degree in a relevant subject are also required. To find out more, please contact careers@fathom-consulting.com quoting job reference 25/02/2019/003. The deadline for applications is 5:00pm Monday 25 March 2019.

Data scientist

Fathom requires a data scientist to spearhead our efforts to greatly improve the efficiency and flexibility of our internal systems, making it easier for existing staff to access and improve our databases, proprietary models and tools. The ideal candidate will have strong programming skills in either R or Python, a quantitative mindset, and a keen interest in finance and economics gained through professional experience, academic studies or a demonstrable personal interest. Experience using SQL would be beneficial for this role. The role would suit someone who is quantitatively versed, passionate about programming, a self-starter who enjoys applying these skills to solve problems in creative and novel ways. A few years' experience and a good degree in a relevant subject are also required. To find out more, please contact careers@fathom-consulting.com quoting job reference 25/02/2019/004. The deadline for applications is 5:00pm Monday 25 March 2019.
